Concepts of Biology Samantha Fowler 2018-01-07 Concepts of Biology is designed for the single-semester introduction to biology course for non-science majors, which for many students is their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read and understand. Even more importantly, the content should be meaningful. Students do much better when they understand why biology is relevant to their everyday lives. For these reasons, Concepts of Biology is grounded on an evolutionary basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts at hand. We also strive to show the interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall organization and coverage found in most syllabi for this course. A strength of Concepts of Biology is that instructors can customize the book, adapting it to the approach that works best in their classroom. Concepts of Biology also includes an innovative art program that incorporates critical thinking and clicker questions to help students understand--and apply--key concepts.

**The Boy at the Back of the Class** Onjali Q. Raúf 2019-08-06 Told with humor and heart, The Boy at the Back of the Class offers a child's perspective on the refugee crisis, highlighting the importance of friendship and kindness in a world that doesn't always make sense. There used to be an empty chair at the back of Mrs. Khan's classroom, but on the third Tuesday of the school year a new kid fills it: nine-year-old Ahmet, a Syrian refugee. The whole class is curious about this new boy--he doesn't seem to smile, and he doesn't talk much. But after learning that Ahmet fled a Very Real War and was separated from his family along the way, a determined group of his classmates bands together to concoct

the Greatest Idea in the World--a magnificent plan to reunite Ahmet with his loved ones. This accessible, kid-friendly story about the refugee crisis highlights the community-changing potential of standing as an ally and reminds readers that everyone deserves a place to call home. "This moving and timely debut novel tells an enlightening, empowering, and ultimately hopeful story about how compassion and a willingness to speak out can change the world." --School Library Journal, Starred Review Overall Winner of the 2019 UK Waterstones Children's Book Prize Winner of the 2019 UK Blue Peter Book Award A CLIP Carnegie Medal Children's Book Award Nominee
