**Breve diccionario etimologico de la lengua espanola** Guido Gómez de

Silva 1985 The main purpose of

this etymological dictionary is to trace each Spanish word as far back as possible in order to acquaint the reader with the history of the evolution of the Spanish language; another of its aims is to help students learn vocabulary, e.g., the English word 'sky' does not help English speaking persons learn the Spanish work 'cielo' but the English word 'celestial' does. Etymology is the history of words, and, as words stand for things, it is also the history of things, and therefore of civilisation. The words analyzed in this dictionary cover every area of human endeavor, including science and technology; in addition to words, the book contains certain phrases, and many affixes. Although some Spanish words are not of Indo-European origin, most of them are. In view of the proportion of words with similar etymologies in certain languages, this Spanish etymological dictionary can also be used to find the origin of thousands of English, French, Italian and Portuguese

words as well as that of many words from other languages. Many Indo-European roots are represented in Spanish words and therefore this dictionary forms a complete picture of Indo-European etymology. This etymological dictionary is of great value to all those working with, or interested in, the Spanish language. As a reference work it should be on the shelves of school, university and general public libraries as well as other appropriate reference libraries. It is of particular value to students and teachers of Spanish and to translators and conference interpreters.

Osun across the Waters Joseph M. Murphy 2001-10-09 ã'sun is a brilliant deity whose imagery and worldwide devotion demand broad and deep scholarly reflection.

Contributors to the groundbreaking Africa's Ogun, edited by Sandra Barnes (Indiana University Press, 1997), explored the complex nature of Ogun, the orisa who transforms life through iron and technology. ã'sun across the Waters continues this exploration of Yoruba religion by documenting ã'sun religion. ã'sun presents a dynamic

example of the resilience and renewed importance of traditional Yoruba images in negotiating spiritual experience, social identity, and political power in contemporary Africa and the African diaspora. The 17 contributors to ã'sun across the Waters delineate the special dimensions of ã'sun religion as it appears through multiple disciplines in multiple cultural contexts. Tracing the extent of ã'sun traditions takes us across the waters and back again. ã'sun traditions continue to grow and change as they flow and return from their sources in Africa and the Americas.

**Whirlwind** Sekou Odinga

2017-08-15 Amid music festivals and moon landings, the tumultuous year of 1969 included an infamous case in the annals of criminal justice and Black liberation: the New York City Black Panther 21. Though some among the group had hardly even met one another, the 21 were rounded up by the FBI and New York

Police Department in an attempt to disrupt and destroy the organization that was attracting young people around the world. Involving charges of conspiracy to commit violent acts, the Panther 21 trial—the longest and most expensive in New York history—revealed the illegal government activities which led to exile, imprisonment on false charges, and assassination of Black liberation leaders. Solidarity for the 21 also extended well beyond “movement” circles and included mainstream publication of their collective autobiography, *Look for Me in the Whirlwind*, which is reprinted here for the first time. *Look for Me in the Whirlwind: From the Panther 21 to 21st-Century Revolutions* contains the entire original manuscript, and includes new commentary from surviving members of the 21: Sekou Odinga, Dhoruba Bin Wahad, Jamal Joseph, and Shaba Om. Still-imprisoned Sundiata Acoli, Imam Jamil Al-Amin, and Mumia Abu-Jamal contribute new essays. Never or rarely

seen poetry and prose from Afeni Shakur, Kuwasi Balagoon, Ali Bey Hassan, and Michael “Cetewayo” Tabor is included. Early Panther leader and jazz master Bilal Sunni-Ali adds a historical essay and lyrics from his composition “Look for Me in the Whirlwind,” and coeditors kioni-sadiki, Meyer, and Panther rank-and-file member Cyril “Bullwhip” Innis Jr. help bring the story up to date. At a moment when the Movement for Black Lives recites the affirmation that “it is our duty to win,” penned by Black Liberation Army (BLA) militant Assata Shakur, those who made up the BLA and worked alongside of Assata are largely unknown. This book—with archival photos from David Fenton, Stephen Shames, and the private collections of the authors—provides essential parts of a hidden and missing-in-action history. Going well beyond the familiar and mythologized nostalgic Panther narrative, *From the Panther 21 to 21st-Century Revolutions* explains how and why the

Panther legacy is still relevant and vital today.

*El Monstruo* John Ross  
2009-11-24 John Ross has been living in the old colonial quarter of Mexico City for the last three decades, a rebel journalist covering Mexico and the region from the bottom up. He is filled with a gnawing sense that his beloved Mexico City's days as the most gargantuan, chaotic, crime-ridden, toxically contaminated urban stain in the western world are doomed, and the monster he has grown to know and love through a quarter century of reporting on its foibles and tragedies and blight will be globalized into one more McCity. *El Monstruo* is a defense of place and the history of that place. No one has told the gritty, vibrant histories of this city of 23 million faceless souls from the ground up, listened to the stories of those who have not been crushed, deconstructed the *Monstruo's* very monstrosity, and lived to tell its secrets. In *El Monstruo*, Ross now does.

**Santería Enthroned** David H. Brown 2021-10-24 Ever since its emergence in colonial-era Cuba, Afro-Cuban Santería (or Lucumí) has displayed a complex dynamic of continuity and change in its institutions, rituals, and iconography. Originally published in 2003 *Santería Enthroned* combines art, history, cultural anthropology, and ethnohistory to show how Africans and their descendants have developed novel forms of religious practice in the face of relentless oppression. Focusing on the royal throne as a potent metaphor in Santería belief and practice it shows how negotiations among ideologically competing interests have shaped the religion's symbols, rituals, and institutions from the nineteenth century to the present. Rich case studies of change in Cuba and the United States, including a New Jersey temple and South Carolina's Oyotunji Village, reveal patterns of innovation similar to those found among rival Yoruba kingdoms in Nigeria.

Throughout, the book argues for a theoretical perspective on culture as a field of potential strategies and "usable pasts" that actors draw upon to craft new forms and identities - a perspective that will be invaluable to all students of the African Diaspora.

up your ass. In this affecting collection of poetry and prose, Nuyorican poet Miguel Algarin crafts beautifully angry, sad pieces about injustice and loss. While warning his compatriots about the unreality of the American Dream, he acknowledges that "we are the pistons that / move the roughage through Uncle / Sam's intestines, we keep the flow / of New York happening / we are its muscles." Algarin's poems covering his long career give voice to the disenfranchised—the junkie, the HIV inflicted, the poverty stricken—and survival is a recurring theme. In the essay "Nuyorican Language," which was originally published in 1975, he argues that for the New York Puerto Rican, there are three survival possibilities: to work hard for little money all your life and remain in eternal debt; to live life by taking risks of all types, including killing, cheating and stealing; and to create alternative behavioral habits. The Nuyorican poet, he says, must create a new language,

"A new day needs a new language or else the day becomes a repetition of yesterday." While many of the poems focus on the Puerto Rican experience in New York, others touch on universal experiences such as the death of friends and the ephemeral nature of life. "So what if you're dead, / I'm here, you're gone, / and I'm left alone / to watch how time betrays, / and we die slow / so very slow." And he turns his sharp gaze on events around the world, including the fights between England and Argentina for the Falkland Islands, Israel and Palestine for the Holy Land. With an introduction by Ernesto Quiñonez, author of the acclaimed novel *Bodega Dreams*, this collection takes the reader through an intimate, autobiographical journey of one of the country's leading Nuyorican writers and intellectuals.

**Names** Tariq Rahman 2015

This book is the first scholarly study of personal names in Pakistan and is based on an analysis of names from all over the country, both from the early years and from the contemporary period. The only earlier study was by Sir Richard Temple in 1883 and the data for that came from East Punjab, now in India. Thus there was only one chapter on Muslim names in it. This work describes beliefs about names, onomastic practices, and changes in names during the last sixty years or so. Names are indexed with identity and reflect a person's religion, sect, class, region (urban or rural), degree of modernization, and ethnic origin. They may be markers of social worth or stigmas. In

some situations they may well be dangerous and people may conceal their names or take up new names to avoid persecution. This study of names, therefore, provides insights into the way identity, ideology, and power are inter-related in Pakistan.

Florida, highlighting the

connections between the

Sunshine State and its neighboring islands. Books in this series show how early explorers found and settled Florida and the Caribbean. They tell the tales of early pioneers, both foreign and domestic. They examine topics critical to the area such as travel, migration, economic opportunity, and tourism. They look at the growth of Florida and the Caribbean and the attendant pressures on the environment, culture, urban development, and the movement of peoples, both forced and voluntary. The Florida and the Caribbean Open Books Series gathers the rich data available in these architectural, archaeological, cultural, and historical works, as well as the travelogues and naturalists' sketches of the area in prior to the twentieth century, making it accessible for scholars and the general public alike. *The Beast* Oscar Martinez  
2014-06-03 ONE OF THE BEST BOOKS OF THE YEAR, The Economist and The Financial Times "Harrowing" true stories from two years of immersion reporting on the migrant trail from Chiapas to Arizona—an "honorable successor to enduring works like George Orwell's *The Road to Wigan Pier*" (New York Times) One day a few years ago, 300 migrants were kidnapped between the remote desert towns of Altar, Mexico, and Sasabe, Arizona. A local priest got 120 released, many with broken ankles and other marks of abuse, but the rest vanished. Óscar Martínez, a young writer from El Salvador, was in Altar soon after the abduction, and his account of the migrant disappearances is only one of the harrowing stories he garnered from two years spent traveling up and down the migrant trail from Central America and across the US border. More than a quarter of

a million Central Americans make this increasingly dangerous journey each year, and each year as many as 20,000 of them are kidnapped. Martínez writes in powerful, unforgettable prose about clinging to the tops of freight trains; finding respite, work and hardship in shelters and brothels; and riding shotgun with the border patrol. Illustrated with stunning full-color photographs, *The Beast* is the first book to shed light on the harsh new reality of the migrant trail in the age of the narcotrafficantes.

*Religion and Development in Africa* Ezra Chitando  
2020-06-09 "What is development? Who defines that one community/ country is "developed", while another community/ country is "underdeveloped"? What is the relationship between religion and development? Does religion contribute to development or underdevelopment in Africa? These and related questions elicit quite charged reactions in African studies, development

studies, political science and related fields. Africa's own history, including the memory of marginalisation, slavery and exploitation by global powers ensures that virtually every discussion on development is characterised by a lot of emotions and conflicting views. In this volume scholars from various African countries and many different religions and denominations contribute to this debate."--

**A handbook of the Swahili language as spoken at Zanzibar** Edward Steere (bp. of Central Africa.) 1875

Late Antiquity on the Eve of Islam Averil Cameron 2017-05-15 This volume reflects the huge upsurge of interest in the Near East and early Islam currently taking place among historians of late antiquity. At the same time, Islamicists and Qur'anic scholars are also increasingly seeking to place the life of Muhammad and the Qur'an in a late antique background. Averil Cameron, herself one of the leading scholars of late

antiquity and Byzantium, has chosen eleven key articles that together give a rounded picture of the most important trends in late antique scholarship over the last decades, and provide a coherent context for the emergence of the new religion. A substantial introduction, with a detailed bibliography, surveys the present state of the field, as well as discussing some recent themes in Qur'anic and early Islamic scholarship from the point of view of a late antique historian. The volume also provides an invaluable introduction to recent scholarship, making clear the ferment of religious change that was taking place across the Near East before, during and after the lifetime of Muhammad. It will be essential reading for Islamicists and late antique students and scholars alike.
