Army Medical Logistics Atp 4-02.1 Department of the Army 2017-07-13 This Army Techniques Publication (ATP), "Army Medical Logistics," ATP 4-02.1 addresses the role of medical logistics (MEDLOG) in the Army Health System (AHS). It covers MEDLOG operations from the support battalions at the tactical level to the medical command (deployment support) (MEDCOM [DS]) and theater sustainment command where the critical crossover occurs between strategic agencies within the AHS and commands and the operational units providing logistics support in-theater. Army MEDLOG, as one of the ten medical functions, is an integral part of the AHS. It provides intensive life cycle management of medical products and services that are used almost exclusively by the AHS and its joint partners and are critical to the successful delivery of Army medical capabilities. Army MEDLOG support is tailored to anticipate and effectively respond to medical requirements through the provision of uninterrupted, end-to-end sustainment of the AHS mission across the range of military operations. Providing timely and effective AHS support is a team effort which integrates the clinical and operational aspects of the mission and requires collaboration between the medical logisticians, health care providers, distribution managers, and other partners within the Military Health System. Army MEDLOG includes management of the following functions: Medical

materiel (Class VIIIA); Medical equipment maintenance and repair; Optical fabrication and repair; Patient movement items (PMI); Medical gases; Blood (Class VIIIB) storage and distribution; Regulated medical waste (including hazardous material); Medical facilities and infrastructure; Medical contracting.

National Strategy for the COVID-19 Response and Pandemic Preparedness Joseph R. Biden, Jr. 2021-05-04 The ultimate guide for anyone wondering how President Joe Biden will respond to the COVID-19 pandemic—all his plans, goals, and executive orders in response to the coronavirus crisis. Shortly after being inaugurated as the 46th President of the United States, Joe Biden and his administration released this 200 page guide detailing his plans to respond to the coronavirus pandemic. The National Strategy for the COVID-19 Response and Pandemic Preparedness breaks down seven crucial goals of President Joe Biden's administration with regards to the coronavirus pandemic: 1. Restore trust with the American people. 2. Mount a safe, effective, and comprehensive vaccination campaign. 3. Mitigate spread through expanding masking, testing, data, treatments, health care workforce, and clear public health standards. 4. Immediately expand emergency relief and exercise the Defense Production Act. 5. Safely reopen schools, businesses, and travel while protecting workers. 6. Protect those most at risk and advance equity, including across racial, ethnic and rural/urban

lines. 7. Restore U.S. leadership globally and build better preparedness for future threats. Each of these goals are explained and detailed in the book, with evidence about the current circumstances and how we got here, as well as plans and concrete steps to achieve each goal. Also included is the full text of the many Executive Orders that will be issued by President Biden to achieve each of these goals. The National Strategy for the COVID-19 Response and Pandemic Preparedness is required reading for anyone interested in or concerned about the COVID-19 pandemic and its effects on American society.

The Rise of Liberal Religion Matthew Hedstrom 2013 Winner of the Frank S. and Elizabeth D. Brewer Best First Book Prize of the American Society of Church History Named a Society for U. S. Intellectual History Notable Title in American Intellectual History The story of liberal religion in the twentieth century, Matthew S. Hedstrom contends, is a story of cultural ascendancy. This may come as a surprise—most scholarship in American religious history, after all, equates the numerical decline of the Protestant mainline with the failure of religious liberalism. Yet a look beyond the pews, into the wider culture, reveals a more complex and fascinating story, one Hedstrom tells in *The Rise of Liberal Religion*. Hedstrom attends especially to the critically important yet little-studied arena of religious book culture—particularly the religious middlebrow of mid-century—as the site where religious liberalism was most effectively popularized. By looking at book weeks, book clubs, public libraries, new publishing enterprises, key authors and bestsellers, wartime reading programs, and fan mail, among other sources, Hedstrom is able to provide a rich, on-the-ground account of the men, women, and organizations that drove religious liberalism's cultural rise in the 1920s, 1930s, and 1940s. Critically, by the post-WWII period the religious middlebrow had expanded beyond its Protestant roots, using mystical and psychological spirituality as a platform for interreligious exchange. This compelling history of religion and book culture not only shows how reading and book buying were critical twentieth-century religious

practices, but also provides a model for thinking about the relationship of religion to consumer culture more broadly. In this way, *The Rise of Liberal Religion* offers both innovative cultural history and new ways of seeing the imprint of liberal religion in our own times.

American General John S.D. Eisenhower 2014-10-07 From respected historian John S. D. Eisenhower comes a surprising portrait of William Tecumseh Sherman, the Civil War general whose path of destruction cut the Confederacy in two, broke the will of the Southern population, and earned him a place in history as “the first modern general.” Yet behind his reputation as a fierce warrior was a sympathetic man of complex character. A century and a half after the Civil War, Sherman remains one of its most controversial figures—the soldier who brought the fight not only to the Confederate Army, but to Confederate civilians as well. Yet Eisenhower, a West Point graduate and a retired brigadier general (Army Reserves), finds in Sherman a man of startling contrasts, not at all defined by the implications of “total war.” His scruffy, disheveled

appearance belied an unconventional and unyielding intellect. Intensely loyal to superior officers, especially Ulysses S. Grant, he was also a stalwart individualist. Confident enough to make demands face-to-face with President Lincoln, he sympathetically listened to the problems of newly freed slaves on his famed march from Atlanta to Savannah. Dubbed “no soldier” during his years at West Point, Sherman later rose to the rank of General of the Army, and though deeply committed to the Union cause, he held the people of the South in great affection. In this remarkable reassessment of Sherman’s life and career, Eisenhower takes readers from Sherman’s Ohio origins and his fledgling first stint in the Army, to his years as a businessman in California and his hurried return to uniform at the outbreak of the war. From Bull Run through Sherman’s epic March to the Sea, Eisenhower offers up a fascinating narrative of a military genius whose influence helped preserve the Union—and forever changed war.

School, Family, and Community Partnerships Joyce L. Epstein 2018-07-19 Strengthen programs of family and community engagement to promote equity and increase student success! When schools, families, and communities collaborate and share responsibility for students’ education, more students succeed in school. Based on 30 years of research and fieldwork, the fourth edition of the bestseller *School, Family, and Community Partnerships: Your Handbook for Action*, presents tools and guidelines to help develop more effective and more equitable programs of family and community engagement. Written by a team of well-known experts, it provides a theory and framework of six types of involvement for action; up-to-date research on school, family, and community collaboration; and new materials for professional development and on-going technical assistance. Readers also will find: Examples of best practices on the six types of involvement from preschools, and elementary, middle, and high schools Checklists, templates, and evaluations to plan goal-linked partnership programs and assess progress CD-ROM with slides and notes for two presentations: A new awareness session to orient colleagues on the major components of a research-based partnership program, and a full One-Day Team Training Workshop to prepare school teams to develop their partnership programs. As a foundational text, this handbook demonstrates a proven approach to implement and sustain inclusive, goal-linked programs of partnership. It shows how a good partnership program is an essential component of good school organization and school improvement for student success. This book will help every district and all schools

strengthen and continually improve their programs of family and community engagement.

Indo-Pacific Strategy Report - Preparedness, Partnerships, and Promoting a Networked Region, 2019 DoD Report, China as Revisionist Power, Russia as Revitalized Malign Actor, North Korea as Rogue State U S Military 2019-06-02 This important report was issued by the Department of Defense in June 2019. The Indo-Pacific is the Department of Defense's priority theater. The United States is a Pacific nation; we are linked to our Indo-Pacific neighbors through unbreakable bonds of shared history, culture, commerce, and values. We have an enduring commitment to uphold a free and open Indo-Pacific in which all nations, large and small, are secure in their sovereignty and able to pursue economic growth consistent with accepted international rules, norms, and principles of fair competition. The continuity of our shared strategic vision is uninterrupted despite an increasingly complex security environment. Inter-state strategic competition, defined by geopolitical rivalry between free and repressive world order visions, is the primary concern for U.S. national security. In particular, the People's Republic of

China, under the leadership of the Chinese Communist Party, seeks to reorder the region to its advantage by leveraging military modernization, influence operations, and predatory economics to coerce other nations. In contrast, the Department of Defense supports choices that promote long-term peace and prosperity for all in the Indo-Pacific. We will not accept policies or actions that threaten or undermine the rules-based international order - an order that benefits all nations. We are committed to defending and enhancing these shared values. China's economic, political, and military rise is one of the defining elements of the 21st century. Today, the Indo-Pacific increasingly is confronted with a more confident and assertive China that is willing to accept friction in the pursuit of a more expansive set of political, economic, and security interests. Perhaps no country has benefited more from the free and open regional and international system than China, which has witnessed the rise of hundreds of millions from poverty to growing prosperity and security. Yet while the Chinese people aspire to free markets, justice, and the rule of law, the People's Republic of China (PRC), under the leadership of the Chinese Communist Party (CCP), undermines the international system from within by exploiting its benefits while simultaneously eroding the values and principles of the rules-based order. This compilation includes a reproduction of the 2019 Worldwide Threat Assessment of the U.S. Intelligence Community. 1. Introduction * 1.1. America's Historic Ties to the Indo-Pacific * 1.2. Global Trends 2040 National Intelligence Council 2021-03 "The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) *Global Trends 2040-A More Contested World* (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

Forging a Total Force Forrest L. Marion 2018 "Forging a Total Force traces the evolution of the Guard and reserve from the Revolutionary War-era militias to today's operational reserve, an integral part of the

nation's total force. In the early republic, the ideal of a citizen-soldier, capable of taking the field with little or no training, predominated. The realities of modern combat slowly made it clear that a more professional force was required, but policy changes failed to keep up with that changing necessity. The nation struggled to provide adequate training and equipment to the reserve component throughout the Cold War until the idea of a Total Force, which integrated regular and reserve components, emerged and was achieved. It wasn't until the defense buildup of the 1980s that the ideal of a combat-ready reserve became reality. The core of this book focuses on what came next, from 1990 to 2011, with particular emphasis on the decade after 9/11. The Persian Gulf War demonstrated both the effectiveness of the reserve and the challenges it continued to face. The post-Cold War drawdown during the 1990s made the smaller active component more dependent on the reserves than it had been since the nation's founding. The reserve component proved itself yet again in the wars following 9/11, but also became strained as it became clear just how much the nation depended on its Guard and reserve. Finally, the authors detail the policy changes made midstream in an attempt to address issues with the overextended force, such as balancing training and deployment with civilian lives and careers, providing health care to reservists, and integrating the active and reserve components. The authors conclude by detailing the issues policymakers will face as they forge ahead with citizen-soldiers serving as an operational force."--Provided by publisher.

Army Leadership and the Profession (ADP 6-22) Headquarters

Department of the Army 2019-10-09 ADP 6-22 describes enduring concepts of leadership through the core competencies and attributes required of leaders of all cohorts and all organizations, regardless of mission or setting. These principles reflect decades of experience and validated scientific knowledge. An ideal Army leader serves as a role model through strong intellect, physical presence, professional competence, and moral character. An Army leader is able and willing to act decisively, within superior leaders' intent and purpose, and in the organization's best interests. Army leaders recognize that organizations, built on mutual trust and confidence, accomplish missions. Every member of the Army, military or civilian, is part of a team and functions in the role of leader and subordinate. Being a good subordinate is part of being an effective leader. Leaders do not just lead subordinates-they also lead other leaders. Leaders are not limited to just those designated by

position, rank, or authority.

Psychological Operations Frank L. Goldstein 1996 This anthology serves as a fundamental guide to PSYOP philosophy, concepts, principles, issues, and thought for both those new to, and those experienced in, the PSYOP field and PSYOP applications. It clarifies the value of PSYOP as a cost-effective weapon and incorporates it as a psychological instrument of U.S. military and political power, especially given our present budgetary constraints. Presents diverse articles that portray the value of the planned use of human actions to influence perceptions, public opinion, attitudes, and behaviors so that PSYOP victories can be achieved in war and in peace.

Integration of the Armed Forces, 1940-1965 Morris J. MacGregor 2020-06-18 "In the quarter century that followed American entry into World War II, the nation's armed forces moved from the reluctant inclusion of a few segregated Negroes to their routine acceptance in a racially integrated military establishment. Nor was this change confined to military installations. By the time it was over, the armed forces had redefined their traditional obligation for the welfare of their members to include a promise of equal treatment for black servicemen wherever they might be. In the name of equality of treatment and opportunity, the Department of Defense began to challenge racial injustices deeply rooted in American society. For all its sweeping implications, equality in the armed forces obviously had its pragmatic aspects. In one sense it was a practical answer to pressing political problems that had plagued several national administrations. In another, it was the services' expression of those liberalizing tendencies that were permeating American society during the era of civil rights activism. But to a considerable extent the policy of racial equality that evolved in this quarter century was also a response to the need for military efficiency. So easy did it become to demonstrate the connection between inefficiency and discrimination that, even when other reasons existed, military efficiency was the one most often evoked by defense officials to justify a change in racial policy."_x000D_ Morris J. MacGregor, Jr., received the A.B. and M.A.

degrees in history from the Catholic University of America. He continued his graduate studies at the Johns Hopkins University and the University of Paris on a Fulbright grant. The People's Liberation Army and Contingency Planning in China Arthur

S. Ding 2019-02-17 All militaries have a responsibility to plan for contingencies, and China's military, the People's Liberation Army (PLA), is no exception. PLA contingency planning takes place primarily within the General Staff Department's (GSD's) First Department, also known as the GSD Operations Department. China's seven military regions participate in drafting and reviewing the plans relevant to their areas of responsibility, albeit under heavy supervision from the GSD. U.S. joint doctrine defines a contingency as "a situation that likely would involve military forces in response to natural and manmade disasters, terrorists, subversives, military operations by foreign powers, or other situations." U.S. doctrine distinguishes between deliberate planning (advance preparation of campaign and contingency plans in non-crisis situations) and crisis action planning (rapid planning in response to a developing incident or situation). Deliberate planning is typically used to develop campaign and contingency plans for a broad range of activities based on requirements identified in strategic guidance for military commanders. Crisis action planning is conducted with less advance warning (hours, days, or up to 12 months) and focuses on developing alternative courses of action or refining existing campaign or contingency plans to adapt to current circumstances. Policy Analysis in National Security Affairs Richard L. Kugler 2006 This book addresses how to conduct policy analysis in the field of national security, including foreign policy and defense strategy. It is a philosophical and conceptual book for helping people think deeply, clearly, and insightfully about complex policy issues. This books reflects the viewpoint that the best policies normally come from efforts to synthesize competing camps by drawing upon the best of each of them and by combining them to forge a sensible whole. While this book is written to be reader-friendly, it aspires to in-depth scholarship.

The National Security Strategy of the United States of America

United States. President (2001-2009 : Bush) 2002 The great struggles of the twentieth century between liberty and totalitarianism ended with a decisive victory for the forces of freedom and a single sustainable model for national success: freedom, democracy, and free enterprise. In the twenty-first century, only nations that share a commitment to protecting basic human rights and guaranteeing political and economic freedom will

be able to unleash the potential of their people and assure their future prosperity. People everywhere want to be able to speak freely; choose who will govern them; worship as they please; educate their children male and female; own property; and enjoy the benefits of their labor. These values of freedom are right and true for every person, in every society and the duty of protecting these values against their enemies is the common calling of freedom-loving people across the globe and across the ages. Today, the United States enjoys a position of unparalleled military strength and great economic and political influence. In keeping with our heritage and principles, we do not use our strength to press for unilateral advantage. We seek instead to create a balance of power that favors human freedom: conditions in which all nations and all societies can choose for themselves the rewards and challenges of political and economic liberty. In a world that is safe, people will be able to make their own lives better. We will defend the peace by fighting terrorists and tyrants. We will preserve the peace by building good relations among the great powers. We will extend the peace by encouraging free and open societies on every continent. Defending our Nation against its enemies is the first and fundamental commitment of the Federal Government. Today, that task has changed dramatically. Enemies in the past needed great armies and great industrial capabilities to endanger America.

The Armed Forces Officer Richard Moody Swain 2017 In 1950, when he commissioned the first edition of *The Armed Forces Officer*, Secretary of Defense George C. Marshall told its author, S.L.A. Marshall, that "American military officers, of whatever service, should share common ground ethically and morally." In this new edition, the authors methodically explore that common ground, reflecting on the basics of the Profession of Arms, and the officer's special place and distinctive obligations within that profession and especially to the Constitution. *An Unknown Future and a Doubtful Present* Charles E. Kirkpatrick 1991-04 CMH Pub. 93-10. 1st printing. On cover: World War 2 50th Anniversary Commemorative Edition. Spine title reads: Writing the Victory Plan of 1941. Describes the planning process that Major Albert Coady Wedemeyer used in the summer of 1941 to write the plan that

became the outline for mobilization and operations during World War 2. Includes an appendix, "The Army Portion of the Victory Plan, Ultimate Requirements Study, Estimate of Ground Forces." Also includes photographs, footnotes, a bibliography, and an index.

Getting the message through: A Branch History of the U.S. Army Signal Corps Rebecca Robbins Raines 1996 *Getting the Message Through*, the companion volume to Rebecca Robbins Raines' *Signal Corps*, traces the evolution of the corps from the appointment of the first signal officer on the eve of the Civil War, through its stages of growth and change, to its service in Operation DESERT SHIELD/DESERT STORM. Raines highlights not only the increasingly specialized nature of warfare and the rise of sophisticated communications technology, but also such diverse missions as weather reporting and military aviation. Information dominance in the form of superior communications is considered to be sine qua non to modern warfare. As Raines ably shows, the Signal Corps--once considered by some Army officers to be of little or no military value--and the communications it provides have become integral to all aspects of military operations on modern digitized battlefields. The volume is an invaluable reference source for anyone interested in the institutional history of the branch.
